

CiviHelper-(one pager Intro)

1. Problem—

Time taking and cumbersome conventional way to submit your civil problems.

2. Proposed solution---

A platform to provide the submission of problems related to electricity/road/water supply etc...

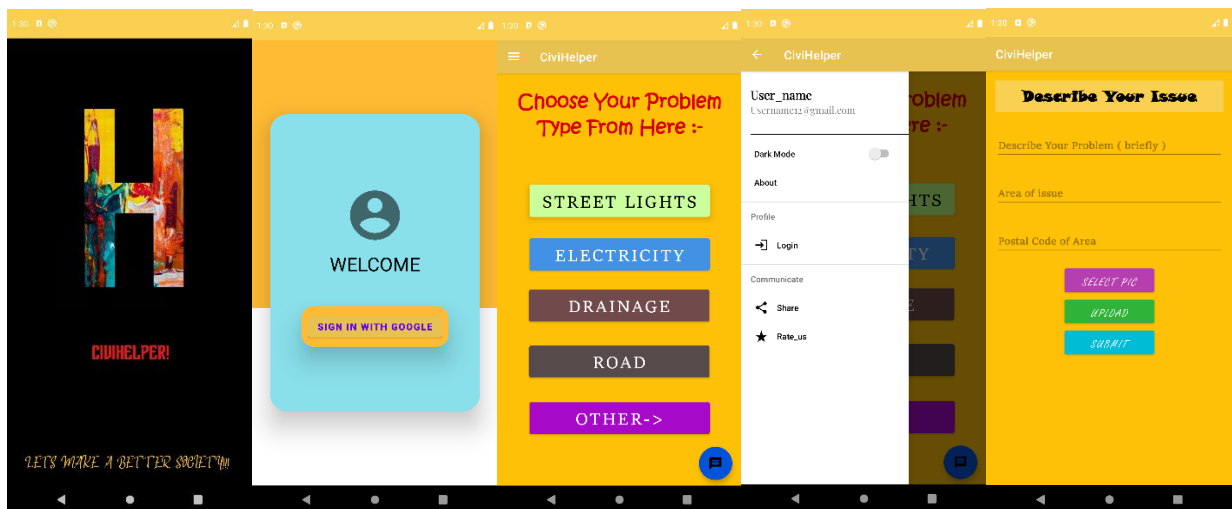

3. Concept---

Kotlin programming using android studio to create pages for PROBLEM WRITING AND RESIDENTIAL ADDRESS and to submit.

4. FUTURE SCOPE—

Enhancement of app by linking it with other facilities like transport , health etc

5. App Screenshots:-
